Projects

Unite (MERN Stack Social Media Project) Jun'22

Tech Stack: React.js, Node.js, Express.js, MongoDB, Redux, MUI

- Designed APIs to login/register users, add, like and comment on posts and encrypted passwords using hashing and salting.
- Integrated with frontend using Fetch API calls and connected with MongoDB Atlas to store site data.

IMDb Clone Jul'23

Tech Stack: React.js, Node.js, HTML, CSS, API

- Built a Movie Rating Project displaying movies information and movies lists such as popular movies.
- Uses Skeleton Loading which simulates layout of a website while data is being loaded.
- Fetched movie data from TMDB API and adjusted the frontend to be user device responsive.

Bank Management System Jul'23

Tech Stack: C++

- Built a project that helps users create,delete,modify their bank account and deposit/withdraw money.
- It stores/retrieves/updates users data using file handling and file streams in C++.
